REVIEW OF OPERATIONS

Your Company could achieve a gross revenue of Rs. 464.39 lakhs (Note no.:14&15 (505.02 lakhs), consisting of (i) Sales revenue of Rs. 388.11 lakhs (388.94 lakhs), (ii) Rental income of Rs. 72.72 lakhs (104.10 lakhs) and (iii) Miscellaneous income of Rs.3.55 lakhs (12.57 lakhs). (Figures in brackets for the previous year). Your Company's operational profit this year stands at Rs.16.36 lakhs against a loss of Rs.18.85 lakhs for the previous year.

In regard to trading, the problem of uncertainty of demand for our limited conventional products is accelerated by availability of cheap and duplicate products flooding the market more so during festival seasons. Our sales are also festival and season related which is evident from the following statement.

Period	Sale value	Average sale value per month
01-04-2015 to 30-09-2015	Rs. 220 Lakhs	Rs. 36.6 Lakhs
01-10-2015 to 31-03-2016	Rs. 170 Lakhs	Rs. 28 Lakhs

The trend is true in respect of the current year as well, in that the sales in turnover for the last 5 months totals to Rs.187 lakhs with a monthly average of Rs.37.4 lakhs. This achievement is again related to festivals like Vishu, Eid and coming Onam. If this trend could be maintained during the rest of the months as well, trading might prove to be highly supportive to earn an operational surplus to meet the heavy expenses of an ongoing Company.

In the distinctly developed culture of preference for readymade items, the merely bleached mull items bear lowest priority in demand and are used presently for exceptional occasions as traditional ware. Despite confronting such significant challenges emanating from a deficient product profile and general decline in textile business, your Company has been able to achieve a sales turnover of Rs. 388lakhs compared to the same amount the previous year.

In our continuous efforts to add some more products to the product profile, your Company has recently introduced bed sheets as sourced items with a hope to increase the sales income

In the past the Company had the benefit of some orders for special made up items both internal and export oriented, demanding intricate specifications which were executed through the inbuilt technological competence of the Company. The demand for such items stands considerably reduced and during the year there was virtually no export of any made up items. The income from internal special products sales during the year stands at Rs. 69 Lakhs. The resultant adverse effect on earnings through trading is that the surplus generated during the initial months of the year is consumed by the losses occurred during the last months of the year.

Your Company continues its relentless efforts to maintain an average monthly sale of about Rs.40 lakhs which alone in the present circumstances allows a breakeven and a comfortable operational surplus.

In regard to renting of godown space in the Mill premises, considering the present trend of lean trading activities the immediate alternative has been to generate some income from godown renting of the large area in the Mill premises by carrying out essential repairs in the existing old buildings to suit modern godown facilities. Recordically the building appears to have been constructed about 80 years before with wood and tiled roofs which were maintained mainly from the point of view of preventing leakage and changing broken tiles and battens. Even this minimum maintenance was not done since 2003 after suspension of manufacturing activities of the Mill, which is being attended to during the last three years.

The buildings being more than seven decades old demanding repair / replacement of roofs and floors after dismantling the old heavy machines, for preparing the buildings to suit the minimum warehousing requirements, logistics conveniences and protecting from rains, the expenditure incurred during the year 2015-16 was Rs.45.63 lakhs against a rental income of Rs.72.72 lakhs. However with these major repairs undertaken, mainly normal general maintenance has to be ensured for upkeep of the building and protection of the stored goods.

Despite laying considerable emphasis, the income from renting is declining. The rental income was Rs. 116.68 during the year 2014-15. However, at the end of the previous year; the godown having an area of 23,500 sq ft was vacated by the KSBC. Also owing to centralised warehousing arrangements done by some Companies resulting in direct delivery from the main storage area, and general decline in business, another about 20000 sq ft of godown area has since been vacated during the year. However all out efforts are being made to find out new parties for renting the built up godown space.

The Company continues its honest efforts to maintain an average monthly sale of about Rs.40 lakhs which alone in the present circumstances allows a breakeven and a comfortable surplus in operation. Despite the limited trading activities, the Company has to meet the huge operational expenses including expenses related to an ongoing Company. Though income from renting activities has been Rs. 72.72lakhs during the year, repair and maintenance of old buildings to suit the minimum warehousing requirement carved a major portion of the earning. Despite these factors, your Company has been able to earn an operational profit of Rs.16.36 lakhs, which is attributable to the strength of the Company derived through its reputation and business acumen. Having discharged major liabilities, its strength lies in its non-dependence on outside finance.

During 2015-16 your Company strived to improve its performance despite confronting significant challenges emanating from circumstances explained above. The Company surmounted these challenges through strategic initiative.

With the intended improvement in trading business and attempted increased income through rent, there is definite scope for improved profitability in future.

ADDENDUM TO THE DIRECTORS' REPORT

Based on the **Qualified Opinion** mentioned in the Auditors' Report to Members dated 18.08.2016

1. Confirmation of balances:

As per the normal practice letters were sent to the debtors for confirming the balances directly to the Statutory Auditors with a specific mention that if no reply was received, the balance mentioned in the Company's communication would be construed as correct. In many cases the debtors were also reminded by personal contacts while on sales visit and over the telephone. Being parties of small transaction they do not take care to meet the said requirement. Yet some replies have been received through the Auditors. However having actively pursued the matter, in many cases the amounts outstanding has since been realized.

2. Segment information required to be disclosed as per accounting standard AS 17 not disclosed in the financial segment.

The relevant item pertains to leasing of godown space in the Mill premises which had gathered momentum only for a while. Though there was mentionable improvement in leasing out godown space during the early part of 2014 -15 there was a reduction to the extent of about 50,000 square feet by December 2015 bringing down the rent income from about Rs.9.5 lakhs p.m. to almost half of it owing to shifting of godown by the parties and centralizing their warehousing system wherefrom goods are directly delivered. Even now threats of vacating the godowns continue. Thus there is considerable instability and uncertainty in declaring the rental activity as a separate segment for accounting purposes. Depending upon the trend of progress during the year appropriate action will be taken for considering this activity as a separate segment for accounting purposes if the growth so permits..

3. AS 28 Impairment of assets:

Owing to the nature of our assets impairment of assets does not apply on our assets as the carrying cost does not exceed their recoverable value.

MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT

1) Industry Structure and Development:

The Indian Textile Industry suffers from lack of stability in availability of raw material, high input cost and cost of conversion and low technology. The cheap goods coming from China and other neighbouring countries in volumes have affected the overall business. Only Companies having latest technology with mass production capacity and strength of capital can survive.

2) Risk Management

The Board of Directors take special care in envisaging and when occurred managing risks that affect the financial health and performance of the Company. On reviewing the reports, specially the quarterly performance results, the Audit Committee and the Board scrutinize the risks that affected the performance of the Company and remedial measures suggested. Through the quality system practised in the past by the Company, the staff is well trained in foreseeing possible inconsistencies in operations and brings to the notice of the top management. The risk management is keenly practiced through all processes of operations.

3) Risks, Concerns, Opportunities, and Threats.

The prices of raw materials were shooting up without any corresponding increase in the price of the finished products. The increase in cost of power, fuel, licence fees and taxes by the Government resulted in increased cost of products. The labour-laws prevailing in Kerala are very stringent to ensure smooth manufacturing process whereas in neighboring states they are flexible. Apart from non availability, the cost of labour is also comparatively very high and hence uneconomical.

The high cost of cotton affects the price of the finished products and hence is beyond the reach of the common man. This has affected the cotton textile business adversely.

Despite such adversities, the Company has been able to make its presence felt in the market though comparatively in a smaller way, which is attributable to its long standing reputation, credibility and quality orientation.

The rent income during the year through stood comparatively reduced, really came to the rescue of operational needs of the Company. Continuous efforts are on hand to increase the rent income by improving, including modernizing, the godown facilities.

4) Segment-wise or Product-wise Performance Outlook

Trading operations could be carried out in a large scale only by considerably increasing the product profile from its present very few items of conventional bleached mull. This involves very high pitch of financing and risk bearing owing to stiff competition, for which resources have to be found. Immediate possibility of borrowing is ruled out in view of the present performance level of the Company. May be with the expected increase in rent income which has proven to be an encouraging source, increasing the product profile can be considered

5) Industrial Relations

As there was no manufacturing operation due to suspension of operations, there were no dealings with the factory employees.

6) Internal Financial Control System

The Company has a well defined internal financial control system. Transactions are authorized and correctly reported. Control Systems are periodically reviewed by the Management and the Audit Committee. The Board is of the view that the existing control methods are operating satisfactorily and monitoring procedures are in place under the present policy of Internal Financial Control and Procedures.

7) Material Development in Human Resources and Industrial Relations including number of people employed :

Owing to the suspension of manufacturing operations since 2003 the Company's business is restricted to outsourcing the products on a far reduced scale. The operations are conducted through less than 10 nos. of staff from an office located in the town. The Staff are well trained under the umbrella of ISO, experienced and highly exposed to quality assurance and marketing strategy.

8) Discussion on Financial performance with regard to operational performance.

The Company concentrated on trading operations resulting in sales revenue of Rs.388.11 lakhs. However the rent income of Rs.72.72 lakhs received during the year came to the rescue and after meeting expenses towards fixed overheads and other related expenses as for an ongoing Company including maintenance of buildings in the Mill premises, which together would have been otherwise an expensive liability your Company could earn a operational profit of Rs.16.36 lakhs.

9) Cautionary Statement:

Statements in this report on Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectation or predictions may be forward looking. These results are based on certain assumptions and expectation of future events. Actual results may however differ materially from those expressed or implied. Important factors that could make a difference to the Company's future operations include global and domestic demand, raw material cost and availability, finished goods prices, changes in Govt. regulations and Tax laws, economic conditions within India and the countries with which the Company had business contacts and

other environmental factors over which the Company does not have any control. Also the godown spaces leased out could not be a source of continuous income unless the buildings and facilities are restructured to suit the renewed requirement of modern godowns, which involves considerable investment. This is visible in that the Income from rent has come down from Rs.104.10 lakhs during previous year to Rs. 72.72 lakhs during the year. Also in order to save cost many firms are centralising their godown at one location wherefrom they directly supply to the customers.

10) Regulatory Compliance:

The Company has taken adequate steps to ensure compliance with various statutory and regulatory stipulations and guidelines within the restricted operational features after suspension of operation of the Mill in 2003.

11) Information on non Mandatory requirements.:

1. The Company has not issued any Shares, GDR\ADR\Warrants or any convertible Instruments
2. The Company is not maintaining a separate office for the Chairman

**MANAGEMENT COMMENTS ON THE OBSERVATIONS ON THE
SECRETARIAL AUDIT REPORT FOR THE
FINANCIAL YEAR ENDED 31.03.2016**

Three Observations are enlisted in the Secretarial Audit Report for the financial year 2015-16 conducted by Mr.Murali Kanniyath, Practicing Company Secretary, Kannur.

Management Comments on the above observations are offered below

1. The Company has not complied with Clause 14 of SEBI (Listing Obligations and Disclosure Requirements) which involves

Payment of listing fees to the exchange

Listing fee for the Bombay Stock Exchange (BSE) had been regularly paid against their bill until the year 2011-12. Subsequently having not received the bills the Company had requested the BSE to send the bills so that payments could be made. Despite a number of requests and indicating that voluntary payment without a proper bill does not permit us to account and is objected to by the Auditors, there was no response from them. The Company has been prompt in making the payments in the past until the BSE stopped sending the bills for reasons unknown to us.

2. The Company has not complied with

a) Clause 31 (2) Promoters Shareholding in Dematerialized form The Company has 126 promoters since establishment of the Company in 1954. The Promoters are widely spread all over. The Company had initiated the process of arranging to demat the shares of the promoters and is continuing to do so. Efforts are being made to complete the process as early as possible.

b) Clause 47 as per SEBI (Listing Obligations and Disclosure Requirements): The financial results of the Company are published in the website of the Company and regularly uploaded to the BSE listing center (website) where it is available for public viewing

3. Non Appointment of Company Secretary.

The Company's present status is just an ongoing concern with an annual income of about Rs 4 crores earned out of restricted operation of mere trading activities against the income of about Rs 30 crores per annum prior to the suspension of manufacturing operations in 2003. The Finance Manager and Company Secretary left the Company in September 2004 seeking better career prospects elsewhere as the Company had no immediate scope of revival to its original status. The trading operation is conducted with a single digit employees on contract / retention basis and one regular executive on most moderate salaries. In this context the Company cannot at this stage bear the brunt of burden of executives with industry standard remuneration which, as it stands, would now lead to a minimum additional expenditure of few lakhs per annum when the Company's profit during the year stands at about Rs.6.00 Lakhs. Apart from this no professional who looks forward for a progressive career prospects with expectation of suitable remuneration would join our Company in its present condition. The Company has a professional having dealt with Company Law matter and other related legal compliances for long with accurate performance capability.

The Board considered the issue in detail and felt that in the above background no Company secretary can presently be appointed at this stage for reasons explained above and that the existing arrangement of availing the services of a Company Secretary in Practice be continued until the situation improves.

ANNEXURE 'B' TO AUDITORS' REPORT FOR THE YEAR ENDED 31 MARCH, 2016

Referred to in our report of 18th August, 2016.

Report on Internal Financial Controls over Financial Reporting

We have audited the internal financial controls over financial reporting of The Western India Cottons Ltd. ("the Company") as of 31 March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both issued by The Institute of Chartered Accountants of India and deemed to be prescribed and section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting include obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of

financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting.

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

20.2 Depreciation has been calculated on the fixed assets of the company by the following methods on the basis of useful lives of the assets estimated by the management:

a) Assets acquired on or before 31.03.1990

- Written Down Value Method

b) Assets acquired on or after 01.04.1990

- Straight Line Method

The useful lives of assets estimated by the management do not differ with the useful lives prescribed in Part C of Schedule II of the Companies Act, 2013 except in respect of two factory buildings renovated during the year 2014-15 and 2015-16.

The useful life of these building is estimated as 15 years based on independent technical evaluation.

These buildings are therefore, depreciated on straight-line basis on useful life of 15 years instead of 30 years prescribed under Part C of Schedule II of the Companies Act 2013.

The company had adopted the useful lives of assets prescribed in Part C of Schedule II of the Companies Act, 2013 for the year 2014-15 and depreciation for that year was computed on the basis of the useful lives as per the Schedule. Had the company continued with its method adopted prior to 31-03-2014 of charging depreciation on the basis of Schedule XIV of the Companies Act,1956, the charge of depreciation for the year ended 31-03-2015 would have been lower by Rs 34,58,730/-.
